

## SERVICE FIRST - ISN'T IT TIME?

You have a lot of choices when it comes to transportation providers. Customs brokers, freight forwarders, third party providers, warehousing companies, common carriers and contract carriers, to name a few, are all after your business. It can be confusing and difficult to know which way to turn when you need to make a transportation change.

Is transborder shipping what your provider specializes in or is it a value added service? Is it just one of a long list of services being offered? If so, you might wonder how they can specialize in so many different offerings.
